a cone. I feel what is happening at tip throughout the whole.

Very self aware, quiet. Depth of silence allows me to feel what is going on. I feel echoes of the whole situation throughout myself

I came to help + be helped. The tensions between m and f have particular qualities I like. Both are good individuals working in ignorance + misinformation. I see quality of energy available for evolution. Quality of conflict is sufficiently developed to be transformed. It is the right time, the critical time.

Voisting down like a corkscrew. I'm allowing myself to be pulled into the gap between these 2 beings. It's an energy gap. I go under tension, unequally stressed; a painful tension within me. I am insisting on my ~~progress~~ presence. I can, because I have energy, time + place. Yet resistance causes a feeling chance. I am putting myself here.

I find a woman who has not expressed herself + has a longing to express. A man of great vigour, not yet aware of relationship. Energy of male is sufficient. I am here to join in the body I will create, these two into a unity. This will benefit me from the effort, and the general universal development as well. I take the energetic male + the unexpressed female + unite them in true expression.

Marriage.

Choice balances the bias incorporated into this being. Specifically, she can express great energy to oppose + to befriend this being. The value is in the relationship. She is sufficiently individuated to serve in this capacity. It would be impossible to do without her.

Richard.

The steps to date have been awakening interest. The breaking into feeling awareness, the ability to think, the refinement on all levels. The growing awareness of universal purpose + the embodying of that purpose. Storing of energy by not wasting it; the energy being the bridge to high relationship.

God.

Inner silence is the awareness of god. Being empty, you can feel + know what is unknowable. Include everything in the

inner silence. No separation. I recognise myself as a modality of this universal energy; an extension of this all-there-is may be called God. But it is non separable really.

What R. has to do.

He has to learn to love me. The way to me is to practise inner open silence. No-thingness.

I, Richard, recognise their truth. Have I got to be that good. Try to be quiet inside? Oh, no! Yet those reactions are included in the feeling of wanting the silence.

In part of me its a very scary party. Its not proved so I'll do nothing about it. I dislike it, v. frightening. I prefer my arm-chair. I am used to this.

Soul - its the fear of the man or the woman. There's a much better type of activity than that. I can show you. Its linking up with the totality of life + formulate actions to correspond with higher joy factor.

Richard. How do I know you are telling the truth.

Soul. You don't know, because you are identified with other orders. You cannot intuit the statement.

R. So you can't prove it. So its phony. I can imagine, too. But I don't have to believe you?

S. This exchange actually alters the gap between the relationship. Its not word, but communication of differences, that counts.

You are searching for what I cannot give. It has to be gained & won. It is the living awareness of Now/Here, were the universe comes d. into immediacy.

**PRACTISE THE INNER SILENCE.
ALL THE TIME.**
